Danyal Zeb

Senior Full-Stack Drupal Developer

Wah Cantt, Pakistan | +92 316 9712793 | danykhan178@gmail.com | **Drupal.org Profile** | **LinkedIn**

PROFESSIONAL SUMMARY

Results-driven Full-Stack Drupal Developer with 4.5+ years of experience architecting, building, and maintaining enterprise-grade websites on Drupal 8, 9, 10, and 11. Proven expertise in custom module development, custom entities/plugins, RESTful and JSON:API integrations, Layout Builder, Paragraphs, Views, and large-scale Drupal 7-to-10 migrations. Skilled across the full stack — from PHP-based backend architecture to responsive, accessible Twig/SCSS front-end theming. Adept at configuration management, Git-based workflows, and Docker/DDEV/Lando environments. Known for clean, maintainable code, performance optimization, and effective collaboration with Agile teams to deliver scalable solutions for enterprise, government, and agency clients.

CORE COMPETENCIES

Drupal Architecture & Site Building • Custom Module & Plugin Development • RESTful & JSON:API Integration • Drupal Migrations (D7 → D10/11) • Performance Optimization & Caching • Configuration Management • Responsive & Accessible Front-End Development • Agile/Scrum Delivery • Cross-Functional Team Leadership • Client Communication & Stakeholder Management

TECHNICAL SKILLS

CMS / Platforms: Drupal 8, 9, 10, 11; Drupal CMS (Starshot); Drupal Commerce

Backend Development: PHP, Custom Modules, Custom Entities & Plugins, Services, Hooks, Event Subscribers, Symfony

Front-End Development: Twig, HTML5, CSS3, SCSS/Sass, JavaScript, jQuery, Bootstrap, Responsive Design, Accessibility (WCAG)

APIs & Integration: RESTful APIs, JSON:API, Webform Integrations, Third-Party API Integrations, Payment Gateway Integration

Site Building: Layout Builder, Paragraphs, Views, Taxonomy, Multilingual Configuration, Webforms

Database: MySQL

Version Control: Git, GitHub, GitLab, Bitbucket

Local Development: Docker, DDEV, Lando, Composer, Drush

CI/CD & DevOps: Deployment Pipelines (foundational experience), Configuration Management, Drush-based Deployments

Performance & SEO: Caching Strategies, Views Query Optimization, Image Optimization, Drupal SEO Best Practices

Debugging & QA: Xdebug, Drupal Watchdog/Logs, Browser DevTools

Operating Systems: Linux, macOS

Agile & Collaboration: Scrum, Jira, Confluence

PROFESSIONAL EXPERIENCE

Full-Stack Drupal Developer | Drupak Pvt Ltd

New City Phase 2, Wah Cantt, Pakistan • January 2022 – Present

- Architected and delivered end-to-end Drupal web applications for enterprise and government clients, including custom module development, custom entity/plugin architecture, and advanced Twig-based theming.
- Built fully responsive, accessible, and multilingual websites using Layout Builder, Views, and SCSS, improving cross-device usability and content editor flexibility.
- Integrated third-party REST APIs and JSON:API endpoints to extend platform functionality and connect Drupal with external systems.
- Standardized configuration management workflows across development, staging, and production environments using Drush and Configuration Sync, reducing deployment inconsistencies.
- Maintained high code quality through structured Git workflows (feature branching, code review) and managed containerized Docker-based local development environments for the team.

- Led a large-scale Drupal 7-to-Drupal 10 migration (see Major Projects), modernizing legacy infrastructure and eliminating deprecated module dependencies.
- Collaborated with designers, project managers, and QA in Agile/Scrum ceremonies using Jira, ensuring on-time delivery across [X] concurrent client projects.

MAJOR PROJECTS

Drupal 7 → Drupal 10 Enterprise Migration

- Migrated a large-scale, content-heavy site from Drupal 7 to Drupal 10, including custom content types, fields, media assets, and user roles/permissions.
- Rebuilt outdated custom modules to meet Drupal 10 coding standards and refactored legacy PHPTemplate/theme files into Twig.
- Restructured content architecture using Layout Builder, improving long-term maintainability and reducing technical debt.

Content-Rich Enterprise Corporate Websites

- Developed multiple content-heavy corporate websites featuring dynamic Views, taxonomy-based filtering, custom blocks, and reusable Paragraph components.
- Designed fieldable, reusable content structures that gave editorial teams greater flexibility to publish and manage content independently.

TECHNICAL ACHIEVEMENTS

- Successfully deployed and maintained 10+ production Drupal websites for enterprise and government clients with zero critical post-launch incidents.
- Recognized by leadership for efficient debugging and performance optimization across multiple client sites, improving page load times and reducing server resource usage.
- Consistently maintained up-to-date expertise across Drupal 8 through 11 and the emerging Drupal CMS Starshot initiative, ensuring client projects remain on modern, supported infrastructure.

EDUCATION

Bachelor of Science in Computer Science

Islamia College University of Peshawar | 2018 – 2022 | CGPA: 3.53/4.0

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Web Development, Software Engineering

TOOLS & TECHNOLOGIES

Drupal 8/9/10/11, Drupal CMS (Starshot), PHP, Symfony, Twig, JavaScript, jQuery, SCSS/Sass, Bootstrap, MySQL, Git, GitHub, GitLab, Bitbucket, Docker, DDEV, Lando, Composer, Drush, Jira, Confluence, Xdebug, RESTful APIs, JSON:API, Layout Builder, Paragraphs, Views, Webforms, Drupal Commerce
